**When The Devil Calls**

When the Devil calls, he doesn't give into excuses.

Well the lights are low yeah  
And the stools are stacked but  
You said you were down to black  
And now the pillow's cold  
Another sneak attack.

Well the doors are locked, the pills are gone, now there's no turning back.

When its time to fall  
You got to keep it going  
'Cause heaven knows that pain and pleasure are just vices.

When its time to crack  
You won't find the pieces  
When the Devil calls he doesn't give into excuses.

A game of hide and seek, yeah  
And you lost our street  
But now its your turn to find the key  
And its all de ja vu  
And the cops won't look for you  
Cause you shot your foot take a second look  
Cause no one else is going to

When its time to fall  
You got to keep it going  
'Cause heaven knows that pain and pleasure are just vices

When its time to crack  
You won't find your pieces  
When the Devil calls he doesn't give into excuses

This ain't your first dance with the devil  
You're dancing alone this time  
I might have friends in low places  
But he's no friend of mine

This ain't your first dance with the devil  
You're dancing alone this time  
I might have friends in low places  
But he's no friend of mine

When its time to crack  
You won't find the pieces  
When the Devil calls he doesn't give into excuses

When its time to fall  
You got to keep it going  
'Cause heaven knows that pain and pleasure are just vices

When its time to crack  
You won't find your pieces  
When the Devil calls he doesn't give into excuses

### **Generations**

So you say they're in love  
I think that shit's made up  
Help me try to understand  
You paint your skin with a scar  
To mend your broken heart  
Passed down from your old man

Generations taught us one thing  
Commitment is so exhausting  
Tied down to one just feels so wrong  
Generation oh so naughty  
We don't like the serious thing  
Tied down to one just feels so wrong

So your pap ran off with her  
Not your mother but a curse  
Now you see her eyes in me  
And you can't write love letters  
But you don't know better  
And I can't help but just agree that

Generations taught us one thing

Commitment is so exhausting  
Tied down to one just feels so wrong  
Generation oh so naughty  
We don't like the serious thing  
Tied down to one just feels so wrong

Why's it so so wrong?  
Why's it so so wrong?  
Why's it so so wrong, wrong, wrong?  
Why's it so so wrong?

Generations taught us one thing  
Commitment is so exhausting  
Tied down to one just feels so wrong  
Generation oh so naughty  
We don't like the serious thing  
Tied down to one just feels so wrong

### **Nobody Cares**

How do you take that jealousy?  
On the rocks or straight or neat?  
Fighting but my records clean, yeah  
Can you say the same?

Sitting here with my Diet Coke while  
You prefer it up your nose I'll  
Bite my tongue better you watch your own child  
This is just a phase, that

Your high road is getting high  
Hellos get you through the night  
With a pinot noir-sassic line

Cause everybody means what the mean but they don't mean it like that  
Like what they like so they might get a like back  
Say what they say just so they avoid the fact  
That nobody cares, nobody.  
No, no, no, nobody cares

What a tragic comedy

Modern days form of honesty  
Likes to hide in the comments, please  
It's time you see

That the high road won't get you high  
Hellos don't get you through the night  
With pinot noir-sassic lies

Cause everybody means what the mean till they don't mean it like that  
Like what they like so they might get a like back  
Say what they say just so they avoid the fact  
That nobody cares, nobody.  
No, no, no, nobody cares.

But, the pains the passion  
You've ruined your ration of  
Serotonin satisfaction  
It's just a phase

When everybody means what the mean till they don't mean it like that  
Like what they like so they might get a like back  
Say what they say just so they avoid the fact  
Nobody cares

Everybody means what the mean till they don't mean it like that  
Like what they like so they might get a like back  
Say what they say just so they avoid the fact  
That nobody cares, nobody.  
No, no, no, nobody cares.  
No, no, no, nobody cares.

### **Revival**

Got a long way to go  
You've been feeling like a ghost to me  
Haunting up and down the row  
But I'm traveling to the coast don't you see that

You're a grave digger that aint dig no graves  
Cause you're a sane sinner who ain't got the brains 'cause you're a  
Losing winner, it's all up in your mind that you want

Cold in winter but you've got enough inside so here we

Go on the road to revival  
Wrap me round your thumb like the devil  
Knock me to the ground and kick me when I'm down  
'Cause here we go on the road to revival

Been fucking everyone you know  
'Cause there ain't no better time to be free yeah  
Lying on the bathroom floor  
Keeping me head down, down to the Lord 'cause

You're a grave digger that aint dig no graves  
'Cause you're a sane sinner who ain't got the brains 'cause you're a  
Losing winner, it's all up in your mind that you want  
Cold in winter 'cause you got enough inside so here we

Go on the road to revival  
Wrap me round your thumb like the devil  
Knock me to the ground and kick me when I'm down  
'Cause here we go on the road to revival

\*Humming break\*

'Cause you're a grave digger that aint dig no graves  
'Cause you're a sane sinner who ain't got the brains 'cause you're a  
Losing winner, it's all up in your mind  
Cold in winter but you've got enough inside so here we

Go on the road to revival  
Wrap me round your thumb like the devil  
Knock me to the ground and kick me when I'm down  
'Cause here we go on the road to revival

**Move On + Pray**

Same old people same old places  
But God a lot of things are changing  
Slowly, my lungs are failing  
Sold my car and then my dog died  
Childhood is in a past life

I see no one to hold me so I

Move on and pray  
That we will get another day  
It's alright to go numb to all the shit that came our way so  
Move on and pray  
Pray for another day

Oh another day  
Oh another day

Single lady in a nutshell  
Buying time to sit on my shelf  
Stalling but it's not working  
My body found a ticking time bomb  
Cheers to us and all that goes wrong  
I need some more coffee so I can

Move on and pray  
That we will get another day  
It's alright to go numb to all the shit that came our way so  
Move on and pray  
Pray for another day

Yeah, We're sailing in a shit storm  
Keeps me guessing what will go wrong  
Nothing we can do but chase the tide  
God I don't know if you exist  
And you know im not religious  
But I pray for you to be by our side

Move on and pray  
That we will get another day  
It's alright to go numb to all the shit that came our way so  
Move on and pray  
Pray

Move on and pray  
That we will get another day  
It's alright to go numb to all the shit that came our way so

Move on and pray  
Pray for another day  
Oh another day  
Oh another day  
Pray for another day

**Better off as friends.**

If I walk back home again  
Will you want to take my hand  
Or do the starless skies they scare you just like the guys at night they scare me to want  
You to walk me home again

That was a mistake  
And don't you take the blame again my friend  
'Cause ever since you that night well you crawled back in my head again

The words better left unsaid  
And I want to go to bed  
'Cause I know you like the back of my hand  
And I cant amputate it again  
you can't walk me home again

That was a mistake  
And don't you take the blame again my friend  
'Cause ever since you that night well you crawled back in my head again

'Cause were better off as friends

**luv songs r stupid**

I think it's a bad idea  
To have you so god damn near  
Yet I still pick up the phone

You just attention yeah  
Some social interaction  
Can you just leave me alone

I don't seem to have  
A spine inside my back  
I'm just play the field

Till you decide to have  
Me inside you arms  
So I don't go too far  
Can we just skip the game  
And won't you say my name,

Just like the love songs  
So I have the chance to write one  
So I don't have to be some  
Poser writing a love song  
Can we just be like the love songs  
So I have the chance to write one love song  
Can we just be like the love songs

Remember that winter night  
Where we both picked a fight  
Then I ran out the room  
In the movies you'd see  
That you should come clean  
And I was the one for you

That was not the case  
You ended the chase  
But you still call me up  
Then want to save the day

Just like the love songs  
So I have the chance to write one  
So I don't have to be some  
Poser writing a love song  
Can we just be like the love songs  
So I have the chance to write one love song  
Can we just be like the love songs

### **That Bitch**

Went for a bike ride 'cause my 9 to 5 well it made me cry and I'm  
Wishing for the night life  
Without the college guys who drop pills in my Drink I

Don't know where my life lies I'll take a year and try to milk the soul from my youth I'm  
thinking that Its contagious to wanna be

That bitch wants to marry young she  
Got you with her southern tongue  
That bitch only opens up with  
Just a couple swigs of rum  
That bitch who you used to love  
Who you're thinking bout when jerking off  
That bitch who wants have a son too  
Bad I'm never bitch enough for you

Saw a southern farm land and I cant help but think that I'd be a damn good wife  
But I'm on the fast track to sell my soul to cooperate and work the rest my life  
Guess I'll take my pants back and you can go find the one who would like to be that  
Pretty one who sets out the table she'll gladly be t

That bitch wants to marry young she  
Got you with her southern tongue  
That bitch only opens up with  
Just a couple swigs of rum  
That bitch who you used to love  
Who you're thinking bout when jerking off  
That bitch who wants have a son too  
Bad I'm never bitch enough for you

I wish I could marry young  
I wish I had that southern tongue  
I wish I could open up with just a couple swigs of rum  
I wish I could have your son  
I wish I was good enough  
I wish I wish  
But too bad I'm never bitch enough

That bitch wants to marry young she  
Got you with her southern tongue  
That bitch only opens up with  
Just a couple swigs of rum  
That bitch who you used to love  
Who you're thinking bout when jerking off

That bitch who wants have a son too  
Bad I'm never bitch enough for you

Cry

I know I look lost  
But waiting for my prince I found myself a person  
Now I am tough  
I'll trade my heels for boots to keep up with your son

And I won't cry to my mama  
'Cause the cow will jump the moon if it wants ta  
I won't cry hallelujah  
'Cause men don't cry cry cry

Brother you sigh  
Pardon me the princess turned into the bad guy  
You don't know why  
Pass the blunt and beer I'm seeking for the high

And I won't cry to my mama  
'Cause the cow will jump the moon if it wants ta  
I won't cry hallelujah  
'Cause men don't cry cry cry

I won't cry  
Till my sister comes back to life  
I won't cry  
Till my mama can pay the dime  
I won't cry  
Till I see the morning light  
I won't cry

I know your not blind  
So don't treat me like I'm different from the guys

And I won't cry to my mama  
'Cause the cow will jump the moon if it wants ta  
I won't cry hallelujah  
'Cause men don't cry cry cry  
And I won't cry cry cry, and we won't cry cry cry

## **Jail Time**

Walk alone see the lonely people  
Who would wanna leave when they ain't found in the steeple  
Barrel shot gun, grandma can't run away

A little pale in the face, flare your nostrils  
Waiting for the day I can tune out all these assholes  
Funny your take, you think you saved the day

I don't know if dad was right  
But I did read all the signs  
Might as well be driving blind  
'Cause we're doing jail time

Walk away you and your spray tan  
Every word you say digs a hole to put your grave in  
Windy these days been since you can't fly away

To my face, blame the ones with tequila  
They don't know the difference 'tween ISIS and Katrina  
Oh the young days how that aint gonna stay the same

I don't know if dad was right  
'Cause I did read all the signs  
Might as well be driving blind  
'Cause we're doing jail time

Oh I see the chains  
Oh I feel the weight  
Oh I see you change  
Oh I see

I don't know if dad was right  
'Cause I did read all the signs  
Might as well be driving blind  
'Cause we're doing jail time  
Yeah, we're doing jail time  
'Cause we're doing jail time

## Radio

I grow old with the radio  
Wondering how and which way this world became my foe.

I wish I told you a month ago  
How I love you so much but now you'll never know

That I contemplate  
If my words have lost their weight or if  
My time is all to blame blinded by the gold.  
I live with my radio driving 100 mph and all I see is road

I grow old with the radio,  
I grow old  
I'm growing old, I'm growing old  
And I wish, I wish I told you, I wish I told you  
That I loved you so much, I loved you so much, I loved you so much  
But all I see is, all I see is road.  
All I see is road, all I see is road, all I see, all I see, all I see is road.
